

Powered Industrial Truck Train-the-Trainer

1 Who Should Attend . . .

This seminar is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about liability and workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA).

2 Why You Need This Seminar . . .

- ▶ To reduce disabling injuries and illnesses to employees - and to ensure that every worker goes home safe and healthy every day.
- ▶ To reduce the high costs of work-related injuries. Nationally, employers spent an estimated 50.8 billion on wage payments and medical care for workers hurt on the job. (*Liberty Mutual Safety Index 2005*) This is only a portion of the total costs of work-related injuries. Indirect costs such as overtime, training and lost productivity can also burden employers.
- ▶ To enhance your company's bottom line. A strong safety and health commitment not only protects workers, it also reduces workers compensation costs, improves employee morale, and increases production and quality.

3 What You'll Learn . . .

This MIOSHA program involves a full day of safety training designed to address specific occupational safety and health hazards associated with operating powered industrial trucks. MIOSHA General Industry Safety Standard Part 21, Powered Industrial Trucks is extensively examined as well as the relevant rules contained in other MIOSHA Standards. Topics include truck safe guards and devices, safe operating procedures, employee selection, training and inspections.

Agenda

We offer a flexible program agenda to emphasize the safety and health topics you want most.

- ▶ Part 21: Review of the Powered Industrial Truck Standard
- ▶ Top 10 Common Powered Industrial Truck Violations
- ▶ Health Hazards Associated with Operating Powered Industrial Trucks
- ▶ Hands on Demonstration of Daily Checks Required by the Standard

Facilitator

Karen was appointed to the Consultation Education and Training Division of MIOSHA in 1992. She is an occupational safety consultant working in the Washtenaw, Oakland, Wayne and Livingston counties providing consultative advice and training opportunities for both employers and employees. Prior to her position at the Bureau, Karen worked as a Loss Control Consultant in the insurance industry, which gave her insight to workers' compensation, property and liability issues while assisting clients with their safety programs.

Karen graduated from Grand Valley State University with a Bachelor's degree in Occupational Safety and Health.

Karen Odell
*Occupational Safety Consultant,
MIOSHA, CET Division*
